

# MDA Virtual Learning: Gene Therapy 101

Join MDA on June 15th from 4-5:30pm ET for a community education webinar on gene therapy. Attendees will learn the basics of gene therapy – what it is and how it works -- as well as receive an overview of the latest developments in gene therapy specifically for neuromuscular disease and understand what considerations need to be taken before pursuing gene therapy treatment. Attendees will have the opportunity to ask questions during the live Q&A.

**Thursday, June 15, 2023**  
**4:00-5:30pm EST**  
**Also available in Spanish**

*Not available to attend live? This webinar will be recorded in English and will be available for viewing a few weeks after the event. Continue with registering to receive an email when the recording is available.*

**Presenters:**

**Natalie Goedeker, CPNP**

**Craig Zaidman, MD**

**Washington University in St. Louis**
